8/11/70

Howard and Dick,

The naw-usual bind. Howard's 8/10 mailing, with clips I'll look at as soon as I can, and 8/2 and 8/9(2), to which I'll respond as best I can. I have o to go into town again, but if the pix is ready, I'll not be ablw to mail it right away because I have to prepare for a hrg on the remaining Ray issues early in the a.m. If I'd not phoned Bud to ask him about it, we'd have deafulted, for he hadn't been notified and hadn't asked-and had, cleverly, been given the wrong date by- Eardley!

If Eckhood refuses, go directly to the director of information and save a step. Eckhoff acts for Hoods, unless he signs himself otherwise. You are covering what I already have, but it is good that you are.

Could the JPA stand for Adamcik?

I said it like it is with Nichols and the authorization. He's crazy. What file identification does your copy have?

Ramblers: do we see so many because we lookmfor them, or because they have a distinctive characteristic, or because sales there were good?

Book: publishers measure length in words only. For popular taste, 25 single-spaced pages is much too long. Can you break that chapter up? Shorter ones preferred today, generally.

Mrs. JFK's test:disagree. Check this in WWII. Thrice confirmed.

Gotta go.
